**Description of Activity:** SNORE has applied for a Special Recreation Permit to conduct a Truck and Buggy desert race in the Nellis Dunes area as shown on the attached map. On Friday, October 1, a single-lap, non-speed reconnaissance-run would be held to allow race participants to become familiar with the racecourse. It is anticipated that there would be 60-80 race participants and 100-300 spectators. The course would be approximately 50 miles long and participants would race 5 laps. Portable sanitation facilities and trash bags would be provided. The event would be restricted to existing racecourse, dry washes and dirt roads. All pit and spectator areas would be located in previously disturbed areas. SNORE would be responsible for dust mitigation measures during the event.

The racecourse will be marked with stakes and survey ribbon. Check points will be located along the course and race-monitors will observe participants to verify that they remain on the designated racecourse and will report any accidents/injuries. Emergency medical services will be onsite throughout the extent of the event. The race promoter will provide sanitation facilities and will clean up all litter, ribbon, markers, etc., associated with the proposed action. The race promoter will be subject to comply with all BLM/USFWS stipulations associated with SRP issuance and must rehabilitate any areas deemed to require restoration due to the proposed action. This proposed action is located outside of all Air Quality Non-attainment Zones as designated by Clark County Department of Air Quality, including hydrographic basin 212.
